

been some disparities, but this special committee that came forth with the formula, which is now being used for property tax in rural areas, had as their goal, status quo, and Senator Landis was Chair of that committee. So here we have a situation where who is going to vote on it, you know, not all the people that are going to pay. As Senator...somebody, I can't remember which one, mentioned the fact that this is taxation without representation, in some cases. See, we don't have a vote in the cities as to whether or not this tax is imposed. We do go in there and we buy parts for machinery, we do pay it because you can't buy it elsewhere. You have to go to a municipality of some sort in order to buy these things. So people in agriculture are trapped and we'll be paying the tax, we'll not have a vote on it and so for these reasons I would ask that the bill be indefinitely postponed.
